

## JOY OVER NEWS OF THE WEDDING

### Friends of Prince David Make Merry Over His Happi- ness.

There was unrestrained joy in the office of the Kapiolani Estate Co., Ltd., yesterday afternoon, when the news of the imminent marriage of Prince David to Miss Abbie Campbell was received beyond question. There was a quiet word sent around, and very soon the private office of the estate was filled with friends of the young people.

There was a case of champagne added to the equipment of the office, and very soon toasts to the health of the Prince and his fiancée, the prosperity of the estate company and the improvements which are to come, were being fast. There was a degree of impromptu in the affair which made it all the more pleasing, in that the sentiments were genuine.

John F. Colburn acted as toastmaster, calling upon every one of the number present to respond. He himself talked of the Prince as an agent of prosperity. Jesse Makalnai spoke of the good fellowship and loveableness of the young man and the young woman; Kaulukou, who was introduced as a backslider, in that he was a Republican, talked of the young Prince as he had watched his early life, and many others discussed what had been and what will be. There was a general air of renewed prosperity around the offices.

While this was going on there was a move for a luau at the Waikiki residence of the prince for last night. Supplies were ordered renewed, and something like twenty invitations sent out. These were all honored and from early in the evening until early in the morning the fun was kept up fast and furious. When the Orpheum was out some twenty of the players went out by the seaside and joined in the merriment of the evening.

## PROTECTION FOR THOMAS SQUARE

The epidemic of crime in and about Thomas Square has resulted in an attempt to furnish more protection for the lives and property of Honolulu citizens in that neighborhood. Superintendent Boyd stated yesterday that two lights will be installed in the square next week, one at the mauka end and the other makai, and a force of men will cut away the thick overhanging tree branches, in order that the light may have an opportunity to penetrate some distance into the park. Mr. Boyd states that the principal difficulty is in the small capacity of the lighting plant, as it is now up to its full force. However, lights will be removed from other parts of the city to Thomas Square, where the need is greater.

High Sheriff Brown stated last evening that an officer has been placed on duty in Thomas Square, and the district has been carefully patrolled since Monday, when the attempt at the Paris home was made. He said the burglar's crusade appeared to be in the vicinity of Beretania and Alakea streets, and several extra men had now been detailed to keep a strict watch in that district.
